ABOUT FIELDERS

Fielders' operations have been servicing Australia's residential, industrial and commercial construction industries for over 115 years. Fielders unique and innovative products, first class engineering and testing resources as well as a strong commitment to quality customer service and support make them leaders in metal roll-forming manufacture and supply

DESIGN

- How to best determine what product finish is required for your project
- Understand the Corrosive Protection Mechanism behind the Activate Technology
- Learn about the new Metallic Colours available and elegant Matt finish option to COLORBOND® steel

SPECIFICATIONS

Understand what effects maximum sheet lengths have on projects, particularly as it relates to:

- Thermal Expansion
- Roof Drainage
- Transportation

INNOVATION

How to get a design edge with new products
